D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 2403121
Applicant Name: Julie LeDoux
Address of Proposal: 1020 Taylor Avenue N

SUMMARY OF PROPOSED ACTION

Master Use Permit to subdivide one parcel into four unit lots. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new lots. The construction of townhouses has been approved under Project No. 2400132.

The following approval is required:

Short Subdivision - To create four unit lots.
(SMC Chapter 23.24)

BACKGROUND DATA

Zoning: L3
Date of Site Visit: n/a
Uses on Site: Multifamily residential

Substantive Site Characteristics: Midblock property along Taylor Avenue N between Prospect and Ward Streets. There is a mixture of multifamily and single family residences in the immediate area, all of which is zoned L3.

Public Comment

Two comment letters received. One requested that development be required to comport with code. The other opposed the project, based on concerns about density and loss of vegetation and open space.

ANALYSIS – SHORT SUBDIVISION

Pursuant to SMC 23.24.040, no short plat shall be approved unless all of the following applicable facts and conditions are found to exist.

1. *Conformance to the applicable Land Use Code provisions;*
2. *Adequacy of access for vehicles, utilities and fire protection, as provided in Section 23.53.005;*
3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*
6. *Is designed to maximize the retention of existing trees.*

Summary

Based on information provided by the applicant, referral comments as appropriate from DPD, Water (SPU), Fire Departments (SFD), Seattle City Light, and Parks and review by the Land Use Planner, the above cited criteria have been met subject to the conditions imposed at the end of this decision. The lots to be created by this short subdivision will meet all minimum standards or applicable exceptions as set forth in the Land Use Code, and are consistent with applicable development standards. As conditioned, this short subdivision can be provided with vehicular access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions. The proposal site is not located in a mapped environmentally critical area nor were any environmentally critical areas observed on site; therefore SMC 25.09.240 is not applicable. The proposed plat maximizes the retention of existing trees. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.

ANALYSIS –UNIT LOT SUBDIVISION (CRITERION #7)

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The unit subdivision provisions of SMC Section 23.24.045 apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family residences in zones where such uses are permitted.*
- B. *Sites developed or proposed to be developed with dwelling units listed in subsection A above, may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to*

some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.

- C. Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of King County Development of Records and Elections.*
- F. The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed short subdivision would conform to applicable standards of SMC 23.24.045 subject to the conditions imposed at the end of this decision. The proposed developments are townhouses. The structures, as reviewed under their separate building permits, conform to the development standards of the time the permit application was vested. To assure that future owners have constructive notice that additional development may be limited; the applicant will be required to add a note to the face of the plat that reads as follows: Include the following on the face of the plat: "The lots created by unit subdivision are not separate building lots. Additional development on any individual lot in this unit subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code." A joint use and maintenance agreement will be required as conditioned at the end of this decision.

DECISION - SHORT (UNIT LOT) SUBDIVISION

The proposed Short Subdivision is **CONDITIONALLY GRANTED**. Applicant must meet all standard recording requirements and conditions and/or requirements as attached to approval cover letter. (Please do not show conditions of approval prior to recording on the plat to be recorded.)

CONDITIONS – UNIT LOT SUBDIVISION

Conditions of Approval Prior to Recording

The owner(s) and/or responsible party(s) shall:

1. The owner(s) and/or responsible party(s) shall comply with all applicable standard recording requirements and instructions. Unit lot language needs to be added to the proposed plat to secure zoning approval.
2. Remove note regarding removal of garage from face of plat.
3. Add the following note to the face of the plat: *"The lots created by this unit subdivision are not separate buildable lots. Additional development on these unit lots in this unit subdivision may be limited as a result of the application of development standards to their parent lot pursuant to applicable provisions of the Seattle Land Use Code."*
4. Provide a joint maintenance and responsibility agreement for maintenance and use of shared walls on property lines and all ingress, egress, and utility easements.
5. Include an easement to provide for electrical facilities and service to the proposed lots as required by Seattle City Light (as described in Exhibit "A" P.M. #250430-2-027) on the final short subdivision.
6. Provide an area to allow for the posting of address signage for Unit Lots C and D at a location visible from Taylor Avenue North and provide a covenant and/or an easement to ensure that address signage can be maintained.

Prior to Issuance of any Building Permit

1. The owner(s) and/or responsible party(s) shall attach a copy of the recorded short subdivision to all permit application plans for any application for a permit to construct, demolish, or change use.
